Simon Sightline

Design criteria

The Simon Sightline is suitable for PVCu, Aluminium and Timber windows. It can also be mounted on a carrier bar. Polyester paint finish in standard colours white, brown and tan.

Performance

Tested in accordance with BS EN 13141-1:2004. Achieves watertightness of 400 pa and air permeability of 4.3 m³/sec. Has a free air flow of 2500 EA and 5000 EA.

Fixing Instructions

Rout out the frame with the correct slot size and configuration for the model to be fitted.

Place the internal unit centrally over the slot and fix into place using the screws provided, then press the end caps in place to conceal the screws.

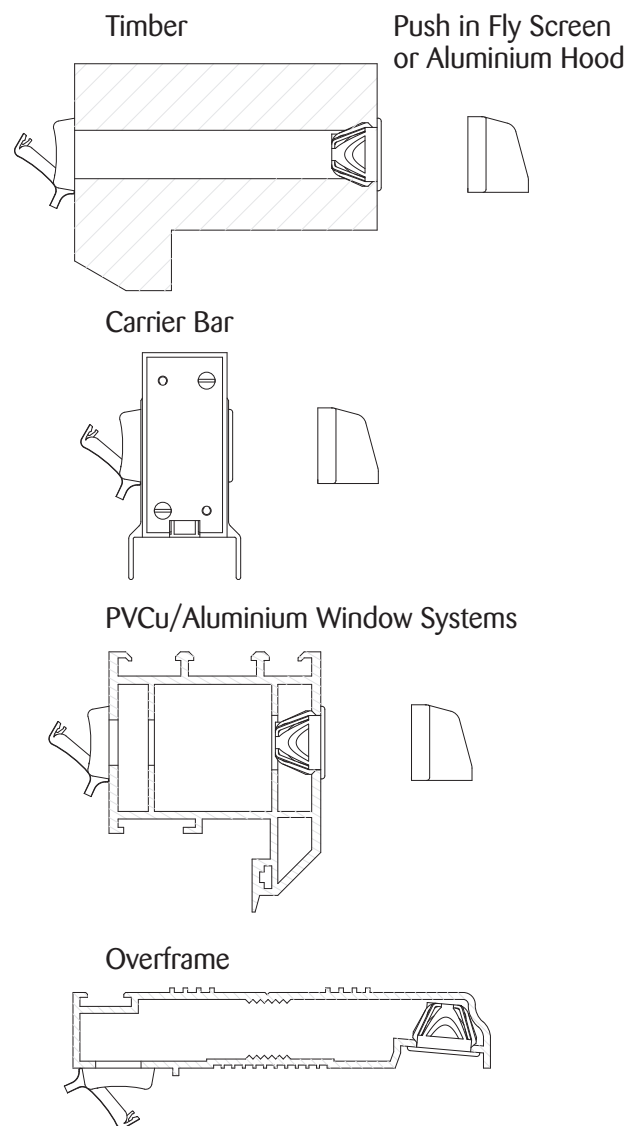

For the external slot either press in the push-in flyscreen or screw the aluminium hood centrally over the slot and fix in place.

Maintenance

The Simon Sightline can be cleaned with normal window cleaning methods.

Specification
